# *Technical Supplement*

U.S. Government Printing Office

Library Programs Service

Vol. 1, no. 1

GP 3.16/3-3:1/1

January 31, 1994

## **Technical Supplement to Administrative Notes Makes Its Debut**

This is the inaugural issue of the Technical Supplement to Administrative Notes. The purpose of the Technical Supplement is to present data needed in depository libraries to update records and files. Administrative Notes will continue to contain policy-oriented text, announcements of new products and operational procedures, conference agendas, etc.

Seven tables of technical data are currently published:

- Classification/Cataloging Update
- Contractor-Issued Microfiche Shipping Lists
- E-Report
- Separate Paper Shipping Lists
- Update to the List of Classes
- Update to the Superseded List
- Whatever Happened To ... ???

These 7 tables will now appear in the Technical Supplement, and others may be added as needed.

Library Programs Service staff are making this change to meet the expressed need of depository library staff to have this technical data in a separate publication which can easily be routed to the areas needing it.

HE 2.6/5:	0516-X-01	<b>Program Operations Manual System (POMS) and Modernized System Operations Manual (MSOM)</b> CD	Production problems have caused delays in issuing this title, which appeared on Survey 93-001. Distribution to depository libraries will begin with the January 1994 issue. LPS will send paper issues until the publisher supplies the first CD.
HE 20.111:	0484-D-02	<b>Physical Fitness/Sports Medicine</b> P	When the publisher combined several issues, some issues were mis-identified. Many libraries were concerned about "missing" issues that were never issued individually by the publisher. For further details, please see Classification/Cataloging Update 1994-01 in this issue
TD 1.40/3:	0982-C-25	<b>U.S. International Air Travel Statistics</b> MF	The publisher has supplied issues for 1991 and 1992. They will be processed and distributed to depository libraries in microfiche in the near future.
